Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	This service has evolved from the County's COVID-19 hotline, previously called the Recovery Services Center. The Constituent Services Navigator program will fund full time staff for the County's emergency call center for FY 2022. The goal of the CSN program is to be a front door for County government services and a coordination center to respond to constituent's most critical needs.
Brief description of recipient’s approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	This emergency call center was a critical emergency need that was created during the COVID-19 pandemic. Based on the 29,000 County service requests taken during the COVID-19 pandemic and operations of the temporary call center the County sees the need to make this call center permanent for County FY 2022 so residents can inform and access County services easily.

Project Description	property for the purposes of continuing and improving the property's operation as a facility to provide supportive housing
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	1 Imp General Public
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The Ulster County Housing Action plan calls for increasing the supply of supporting and transitional housing to meet a critical housing need and break the cycle of homelessness and poverty by providing these units with onsite services. The County of Ulster has identified an opportunity to utilize an existing boarding house located at 21 Elizabeth Street in the City of Kingston to meet these goals.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Under Enumerated Eligible Uses for Impacted Households in the Final Rule, "Treasury has determined that supportive housing or other programs or services to improve access to stable, affordable housing among individuals who are homeless, and the development of affordable housing to increase supply of affordable and high-quality living units are responsive to the needs of impacted populations" (pg. 103, Final Rule). Therefore, the creation of supportive housing is reasonable and proportional.

Project Name: 368 Broadway Crisis Stabilization Center

Project Identification Number	PH 1.12.1

Project Description	The \$2,000,000 is for the acquisition of property on 368 Broadway, Kingston NY for the purposes of creating a Crisis Stabilization Center for constituents.
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	1 Imp General Public
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	A crisis stabilization center would allow individuals in need of mental health and addiction services to connect immediately with an integrated team of clinical counselors, peer specialists, and addiction professionals who can provide support and treatment options. Mental health and substance use services are public health concerns and have been designated as a priority for the County of Ulster. The creation of this center addresses the growing need for mental health and substance use services.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The Final Rule states that behavioral health services can be provided to members of the general public. Such services can include, "both acute and chronic care, such as prevention, outpatient treatment, inpatient treatment, crisis care, diversion programs..." (pg 68, Final Rule). The creation of the crisis stabilization center in Kingston would provide

	crisis care, prevention, and treatment and is therefore a reasonable and proportional response.

Project Name: POD Payroll, COVID-19 Response

Project Identification Number	CR3.1_01
Project Expenditure Category	3-Public Health-Negative Economic Impact: Public Sector Capacity
Project Expenditure Subcategory	3.1-Public Sector Workforce: Payroll and Benefits for Public Health, Public Safety, or Human Services Workers
Status To Completion	Completed
Total Cumulative Obligations	\$324,995.46
Total Cumulative Expenditures	\$324,995.46
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	These funds were used in order to provide staffing to Ulster County's vaccine Point of Distribution (POD) sites. Ulster County established multiple POD sites that have shifted over the course of the pandemic. The primary Ulster County POD has been located in the Hudson Valley Mall in Kingston, in what used to be a Best Buy. These employees have helped the County in vaccinating hundreds of thousands of Ulster County constituents.
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	1 Imp General Public
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	In response to the COVID-19 pandemic, Ulster County created a POD (point of distribution) network in order to provide accessible vaccinations to the constituents of Ulster County. In order to serve the public on such a large scale, Ulster County had to staff these PODs.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	According to the Uniform Guidance, reasonable cost is one that does not exceed "that which would be incurred by a prudent person under the circumstances prevailing at the time the decision was made..." There are many considerations for determining the reasonableness of a cost. Staffing the PODs, as a necessity for the operation of the POD, and paying within the ordinary rate for part time work, ensures that this response was reasonable and proportional to the program.

Sectors Designated as Essential Critical Infrastructure Sectors	All departments were designated as essential.
Number of workers to be served	382
Premium Pay Narrative	<p>This premium pay was designated to workers who are essential to "maintain critical infrastructure and continued critical services and functions" (CDC). Workers from each union needed to meet certain criteria to be eligible for a one-time premium payment under agreements between Ulster County and the union(s).</p> <p>Each Union agreement had specific criteria that designated eligibility for premium pay. The essential breakdown of each agreement dictated the following:</p> <ol style="list-style-type: none"> 1. Employees who worked in person for more than 50% of their hours (420 hours or 480 hours) from the period of March 15, 2021, through June 6, 2021 (35-hour employees require more than 210 hours, 40-hour employees require more than 240 hours). 2. The above threshold is obtained by deducting all COVID paid hours, all paid leave time and remote hours to determine actual hours worked in person. Exception: Employees designated as field workers, who continued to make home visits and/or worked in the public, etc. during this time frame, but were listed as working remote, shall be considered for this settlement. These workers shall be considered working a full shift (7 or 8 hours) if performing any work in public on a specific day and for each day doing so. Occasionally, going to their regular office for short periods of time shall not constitute working in the public as it pertains to this provision if they were listed as working remotely.
